PROFESSIONAL SUMMARY

Highly motivated Java Coder and MERN Stack Developer with a passion for coding and problem-solving. Possessing practical experience and honed skills in web development through academic projects. A dedicated individual committed to delivering high-quality solutions and continuously enhancing expertise in Java and the MERN stack.

EDUCATION

Mahavir Swami Institute of Technology
Bachelor of Technology in Computer Science

August 2019 – August 2023
GPA - 9.0

St. John's Public School
CBSE Board - Senior Secondary

May 2016 – May 2018
Percentage - 85%

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Machine Learning
- Artificial Intelligence
- Web Development
- Operating Systems
- Database Management System (DBMS)
- OOPS Concept
- Computer Networks

PROJECTS

Note Making App 📄 | React, CSS

June 2023

- Created a versatile Note Making App with customizable features, enabling users to personalize and organize notes based on their preferences.
- Developed an intuitive and responsive platform with a search functionality, enabling effortless note generation, customization, seamless organization, and enhanced productivity.
- Crafted a user-centric solution that ensures optimal performance across various screen sizes, providing a tailored tool for effective note-taking and organization.

Movie Booking Application 📄 | React, Tailwind

August 2022

- Developed a user-friendly Movie Booking App, similar to BookMyShow, streamlining movie selection and reservation with seamless payment integration.
- Designed a comprehensive platform for swift movie booking, including secure payments, efficient database tracking of booked movies, and real-time updates on newly added Play Events.
- Created a streamlined application for easy movie discovery, booking, and payments, enriched with real-time Play Event alerts, enhancing user convenience and entertainment engagement.

Tour and Travel Management System 📄 | React, Node, CSS, Bootstrap

July 2023

- Led the development of a Tour and Travel Management System aimed at simplifying the travel planning and booking process, providing users with a seamless platform to browse, customize, and book tours efficiently.
- Integrated a range of features including a user-friendly interface, customizable itineraries and secure online booking capabilities.
- Significantly improved the travel planning and booking experience for users by offering a centralized platform that streamlines the process, saving time and effort.

TRAINING

Devtown 📄

June 2022 – Nov 2022

Full Stack Developer Intern

Acquired solid foundations in core technologies such as HTML and CSS, enabling the design of fully responsive static websites. Delved into the intricacies of JavaScript to implement a wide range of functionalities. Gained proficiency in creating backend servers using Node and developing routes. Acquired extensive expertise in React, proficiently designing interactive and responsive websites.

TECHNICAL SKILLS

Languages: HTML, CSS, Java, JavaScript, Bootstrap, SQL, NoSQL

Developer Tools: VS Code, MySQL, Netbeans, IntelliJ, Docker

Technologies/Frameworks: Git, GitHub, ReactJS, NodeJS, ExpressJS, Git, MongoDB, MaterialUI
